

Press Release – For Immediate Release

January 26, 2008

Leedo Cabinetry is proud to announce that two new industry professionals have joined its management team.

Dave Martin joins Leedo Cabinetry as Vice President of Sales. He comes to Leedo with more than 25 years of sales and executive management experience in the cabinet industry, most recently as Chief Executive Officer of Regal Cabinets. In a prior position, Dave worked at Canada's largest cabinet manufacturer, Canac Kitchens, for 14 years during the company's rapid growth in the 1980's and 90's. He rose to serve as Vice President of Sales from 1998 to 2000 – when Canac's sales grew to \$230 million. Upon leaving Canac in 2000, Dave helped lead the start-up and growth of Aya Kitchens as their CEO and COO.

Bob Ryan joins Leedo Cabinetry as the Vice President of Installation Services with more than 28 years of experience in the construction industry. Prior to joining Leedo, Bob was the Executive Vice President of Construction at Grayco Partners, LLC. Before that, he spent 12 years at Hanover Residential Services, rising to Vice President of Construction. At Hanover Bob managed the pre-development and construction of over 50 projects, in 22 cities and 11 states with construction value in excess of \$900 million dollars.

Leedo President, Ken Hirshman, said that he, and the entire Leedo team are excited about adding these two experienced leaders. "Leedo understands that making our customer successful depends on two critical components. Our sales team has to fully understand and get agreement on all the customer's needs and expectations. And our installation team has to deliver reliable, professional, complete installation – on time. The leadership of these two senior executives will further differentiate Leedo from our competition in these areas."

About Leedo

Leedo Cabinetry is a privately held 38-year old company that provides turn-key kitchen & bath cabinetry and countertop solutions to developers and general contractors of multi-family projects, both renovation and new construction. In addition, Leedo is the leading kitchen supplier to privatized Military housing. Based in Houston, TX Leedo furnishes more than 40,000 dwellings a year, nationwide.

Leedo was one of the few cabinet manufacturers to experience double-digit sales growth over each of the last two years' declining markets. The company has had an annual compound growth rate of 18% from 1993 through 2008 and expects sales growth to continue in 2009.
